Jackson Geller

Front-end Web Developer

8002 Travis Lane
College Park, MD 20740
(703) 638-3269
jacksongeller@gmail.com

EXPERIENCE

Brave UX, Washington, DC — *Lead Developer*

July 2015 - October 2015

Held the development team to a standard of lean and performant code. Oversaw all projects, conducted code reviews, and built internal tools.

Brave UX, Washington, DC — *Web Developer*

June 2014 - July 2015

Developed performant, pixel perfect, mobile-first responsive websites and full web applications.

Freelance, Washington, DC — *Web Developer*

September 2013 - May 2014

Developed static and wordpress sites for different companies and organizations.

PROJECTS

HS Basketball Trajectory Data Visualization — *https://jaxgeller.com/hs-bball-trajectory/*

Scraped data using Python from sources like 247 Sports and ESPN. Using D3.js I plotted the data in a Sankey Format to show the relationship between HS rank and draft position.

Open Ipsum— *https://openipsum.com*

A place where anyone can create and share text generators. Great for designer and their need for filler text. Built with a Rails API on the back-end, and Ember.js on the front-end.

EDUCATION

University of Maryland — *Computer Science*

September 2013 - May 2014

SKILLS

ES6 Javascript

Node.js, Ruby, Python

Ember.js, Angular.js

Rails, Express

HTML/SCSS/PostCSS

WordPress, Jekyll

Gulp, Make, Bash

Docker, Linux, AWS, DO

Illustrator, Sketch
